

**DMS**

# Vehicle Wizard

**Scan & track your vehicles,  
anywhere & anytime.**

**Get an accurate  
inventory  
assessment  
every time.**

Vehicle Wizard allows you to scan and monitor your inventory wherever it's stored. This wireless device integrates with the DMS and verbally notifies you if a unit is unrecognized, has already been scanned, or missing from your lot.

## Features and Benefits

Protect your most important investment with the ability to update your DMS inventory quickly.

Boost profitability by automating your inventory process for new and used cars.

Increase efficiency with a wireless device that allows you to easily scan off-site and large-lot inventories.
