

EMPOWER
YOUR
DEALERS TO
DELIVER A
**FLEXIBLE
SIGNING
EXPERIENCE**

ENABLE
REMOTE SIGNING —
ANYTIME, ANYWHERE.

Remote Signing on Dealertrack Digital Contracting allows your dealers to finalize their deals no matter where their customers are located.

Through a secure signing room, complete with multi-factor authentication, your dealers can now send deal documents to their customer's inbox.

Talk to your Dealertrack Lender Solutions Expert about enabling Remote Signing for your dealers.

GIVE YOUR DEALERS THE FLEXIBILITY TO OFFER A FULLY REMOTE DEAL PROCESS.

How **Remote Signing** on Dealertrack Digital Contracting works:

- 1 Dealer finalizes contract package**

Digital Contracting enables accurate calculations, front end validations and the assurance of no missed signatures reducing re-contracting, and allowing for signing remotely.
- 2 Dealer initiates remote signing ceremony**

Dealer uses the buyer's contact information to send an email with link to view and sign documents.
- 3 Consumer is authenticated**

Buyer opens email; clicks link to retrieve contract whereby multi-factor authentication (MFA) code is sent to cell phone. Consumer enters passcode online, providing secure access contract files.
- 4 Consumer reviews and signs**

Buyer enters the signing room to review and eSign all documents from the device of their choice.
- 5 Completed documents delivered**

Finalized documents are delivered to buyer and dealer via email. Dealer submits a complete digital funding package to you through Dealertrack, and you strengthen your partnership with the dealer.
